# FIJI HEART STUDY

Information brochure

SUPPORTED BY:

## PURPOSE

- To conduct the first ever genetic study of premature coronary events (such as heart attacks or angina/chest pain) for Peoples of Fiji.
- Better representation in research will improve screening, treatment, and heart health outcomes for our future generations.

## WHO CAN PARTICIPATE?

- Anyone with Fijian (i-Taukei) or Fijian Indian (Girmit) ancestry and
- who has experienced their first heart attack or had related surgery (such as stent or bypass) before reaching 55 years of age
- Is a NZ Permanent Resident or Citizen

***YOU MAY ALSO BE ABLE TO PARTICIPATE IF YOU HAVE A CLOSE RELATIVE WHO HAS HAD A HEART ATTACK AT A YOUNG AGE.***

## KOHA

Participants will be reimbursed for:

- travel costs (\$50 petrol voucher) and
- offered a koha (\$100 supermarket voucher) for their time.

## WHAT'S INVOLVED?

Read participant information and provide informed consent.

Provide blood sample for genetic and biomarker analysis.

Permission for authorised research personnel to access medical records related to your coronary event.

Provide family history of heart disease.
